## Trades Programs

Please see Mr. Fraser or Mrs. Giesbrecht and put a comment in the “notes to counselor” if you are interested in a **trades program**. Please see the course selection website for more information on the trades options in our school district:

## Planning for the future

When students are making course selections for grade 11, they will need to consider what their plans may be after they leave secondary school:

- Degree program at university (Bachelor of Arts, Bachelor of Science, etc)
- Certificate or diploma program (Tourism, Vet assistant, etc)
- Trades program (Welding, Carpentry, Electrician, Parts Technician, etc)
- Work

Now is a good time to start having discussions about these plans and researching post-secondary options.

Choosing a grade 11 **English** course can have an impact on post-secondary options.

- English 11 – prepares students for academic programs such as degree, certificate, or diploma programs
- Communications 11 – prepares students for trades or work

Choosing a grade 11 **Mathematics** course can have an impact on post-secondary options.

- Pre-Calculus Math 11 – prepares students for academic programs that are related to Science, such Math or Chemistry degrees
- Foundations Math 11 – prepares students for academics programs that are not related to Science, such as English or Art degrees
- Apprenticeship and Workplace Math 10 – prepares students for the workplace

There is information on a website to help you discuss course selections with your child. The web address for this site is: <http://clearwaterseccourseguide.weebly.com> and it is available as a link on the Clearwater Secondary School website.
